

FAMUTIMI DUNSIN

Graduate Engineer

famutimi95@gmail.com | +234 816 341 9787 | linkedin.com/in/famutimi-dunsin | Nigeria

PERSONAL STATEMENT

A motivated and analytically driven Computer Engineering graduate with Second Class Upper Honours (2:1) from Ekiti State University, with a strong foundation in both software systems and hardware engineering principles. Completed the National Youth Service Corps (NYSC) programme in 2026 and possess over two years of progressive professional experience across technology, systems development, and enterprise application delivery. A strong team player with a problem-solving mindset, effective communication skills, and a genuine commitment to continuous learning and professional growth.

EDUCATION

Bachelor of Engineering – Computer Engineering

Ekiti State University (EKSU) | 2018 – 2024 | Ado Ekiti, Nigeria

- Class of Degree: Second Class Upper Honours (2:1)
- Focus Areas: Software Engineering, Hardware Systems, Computer Architecture, Data Structures & Algorithms
- Final Year Project: Designed and developed a full-stack data management system for engineering operations

NATIONAL YOUTH SERVICE CORPS (NYSC)

NYSC Programme – Completed | 2026

- Successfully completed the mandatory one-year National Youth Service Corps programme
- Contributed to community development initiatives and professional assignments during service year

WORK EXPERIENCE

Full Stack Developer | ReadWrite Data Solution Company

February 2025 – Present | Lagos, Nigeria

- Designed and developed full-stack web applications ensuring seamless data flow between system layers
- Built and maintained RESTful APIs for scalable applications, integrating authentication systems and third-party services
- Deployed and managed applications on cloud platforms (AWS, Vercel) with CI/CD automation pipelines
- Improved system efficiency through caching strategies, database indexing, and legacy codebase refactoring
- Applied Agile methodologies and Git-based version control for collaborative sprint planning and delivery

Junior Software Engineer | YDD Tech Team

June 2023 – Early 2025 | Lagos, Nigeria

- Developed and maintained modular software components for various web-based engineering applications
- Integrated RESTful APIs for real-time data retrieval and participated in structured code review processes
- Contributed to the migration of legacy systems to modern architecture, improving performance and maintainability

Independent Software Developer | Freelance

2021 – 2023 | Nigeria

- Designed and deployed multiple end-to-end software solutions including financial tracking, productivity, and e-commerce platforms

TECHNICAL SKILLS & COMPETENCIES

Engineering & Systems: Systems Architecture, API Engineering (REST & GraphQL), Database Design (PostgreSQL, MongoDB), Cloud Infrastructure (AWS, Docker, Vercel), CI/CD, Performance Tuning

Software Development: JavaScript (ES6+), TypeScript, Node.js, React.js, Next.js, Express.js, HTML5/CSS3, Tailwind CSS, Git & GitHub

Office & Productivity: Microsoft Word, Excel, PowerPoint, Google Docs, Google Sheets, Google Slides, Google Drive

Professional Competencies: Analytical Thinking, Problem-Solving, Project Management, Technical Documentation, Team Collaboration, Effective Communication

CERTIFICATIONS & PROFESSIONAL DEVELOPMENT

PERSONAL DETAILS

Nationality: Nigerian

NYSC Status: Completed (2026)

Languages: English (Fluent), Yoruba (Native)
